Updating F1 OPT and PR Records

Tammy Wilson
Updating F1 OPT and PR Records

- OPA approves new appointments and reappointments in advance of receipt of F1 OPT work authorization (EAD cards)
  - Results in missing data in PeopleSoft; we need your help to maintain the accuracy of visa records
  - Please remember to upload to the recommendation form a copy of initial EAD and STEM EAD cards when received, and notify your OPA manager by email
  - This practice is also true for postdocs who have obtained permanent residence (Green Cards)
Research Experience Calculator

Tammy Wilson
Research Experience Calculator

- Research Experience Calculator must be uploaded to the Recommendation form for:
  - New appointments when the postdoc has previous research experience or other employment after the doctoral degree
  - Department transfer (new appointment) of a postdoctoral appointment from one Stanford department to another Stanford department
  - Any discounts for previous research experience must be noted on the recommendation form at time of appointment approval or risk losing the discount
